Author Index to Volume 59, 2015

Abanin A.V. and Le Hai Khoi Linear continuous right inverse operator for convolution operator in spaces of holomorphic functions of polynomial growth ..... № 1
Abdullaev A.R. and Plaksina I.M. An estimate of spectral radius of one singular integral operator ..... № 2
Abyzov A.N. and Tapkin D.T. On certain classes of rings of formal matrices ..... № 3
Alekhina M.A. and Barsukova O.A. Upper bound of unreliability of circuits in a basis consisting of Webb functions ..... № 3
Atvinovskii A.A. and Mirotin A.R. On some functional calculus of closed operators in a Banach space. II ..... № 5
Avsyankin O.G. Projection method for integral operators with homogeneous kernels perturbed by one-sided multiplicative shifts ..... № 2
Azarov D.N. Approximation properties of automorphisms groups and split extensions ... № 8
Baikalova K.A. About the number of models of theories of locally free algebras ..... № 6
Balakireva E.B. and Samokhvalov S.E. Group-theoretic matching of the length principle and equality principle in geometry ..... № 9
Barsukova O.A. and Alekhina M.A. Upper bound of unreliability of circuits in a basis consisting of Webb functions ..... № 3
Bashova N.P., Stegantseva P.G., and Velichko I.G. The listing of topologies close to the discrete one on finite sets ..... № 11
Bibikov P.V. Classification of control ensembles of projective points ..... № 3
Bikchantaev I.A. On one inner theorem of uniqueness for linear elliptic second order equation with constant coefficients ..... № 5
Bobodzhanov A.A. and Safonov V.F. Asymptotic solutions of Fredholm integro-differential equations with rapidly changing kernels and irreversible limit operator ..... № 10
Budanov K.M. and Sultanov A.Ya. Infinitesimal affine transformations of a Weil bundle of the second order with the complete lift connection ..... № 12
Chistyakov D.S. Separable torsion-free modules with UA-rings of endomorphisms ..... № 6
Chorieva S.T. and Mirsaburov M. On a problem with shift for degenerate equation of mixed type ..... № 4
Derevenskii V.P. Equations in full differentials over matrix skew series ..... № 3
Derevenskii V.P. Matrix Lagrange equations ..... № 12
Derunova E.V. and Sapronov Yu.I. Application of normalized key functions in a problem of branching of periodic extremals ..... № 8
Dolgii Yu.F. and Koshkin E.V. Use of finite-dimensional approximations in a problem of stabilization of periodic systems with aftereffect ..... № 1
Dudov S.I. and Meshcheryakova E.A. On asphericity of convex body ..... № 2
Dyukarev Yu.M. The criterion for the complete indeterminacy of limiting interpolation problem of Stieltjes type in terms of the orthonormal matrix functions ..... № 4
Egorov A.G. and Salamatin A.A. Optimization problems of supercritical fluid extraction of oil ..... № 2
Fayazov K.S. and Khazhiev I.O. Conditional correctness of boundary-value problem for composite fourth-order differential equation ..... № 4
Fedorov V.E. and Gordievskikh D.M. Resolving operators of degenerate evolution equations with fractional derivative with respect to time ..... № 1

Frolenkov I.V. and Kriger E.N. An identification problem of coefficient in the special form at nonlinear lowest term for two-dimensional semilinear parabolic equation with the Cauchy data ..... № 5
Gainutdinova A.F. Comparative complexity of quantum and classical OBDDs for total and partial functions ..... № 11
Gogoladze L.D. and Tsagareishvili V.Sh. On absolute convergence of multiple Fourier series ..... № 9
Gorbatsevich V.V. On the maximal finite-dimensional Lie algebras with given nilradical № 2
Gordievskikh D.M. and Fedorov V.E. Resolving operators of degenerate evolution equations with fractional derivative with respect to time ..... № 1
Gorkovets D.V. Biquandle invariants for links in the projective space ..... № 6
Gorshkov A.A. and Sumin M.I. Stable Lagrange principle in sequential form for the problem of convex programming in uniformly convex space and its applications ..... № 1
Grigoryan G.A. Criteria of global solvability for Riccati scalar equations ..... № 3
Islamov N.B. and Salakhitdinov M.S. Nonlocal boundary-value problem with Bitsadze–Samarskii condition for equation of parabolic-hyperbolic type of the second kind ..... № 6
Kabanova M.I. On differential-geometric structures on a manifold of nonholonomic $(n+1)$-web ..... № 7
Kalinina I.S. and Marchenkov S.S. On complexity of problem of satisfiability for systems of countable-valued functional equations ..... № 8
Kashtanov N.S. and Lapin A.V. Effectively implementable iterative methods for the linear elliptic variational inequalities with constraints to the gradient of solution ..... № 7
Kats B.A., Mironova S.R., and Pogodina A.Yu. A problem on a jump on a contour with limiti continuum ..... № 2
Khabibullin B.N. Sequences of non-uniqueness for weight spaces of holomorphic functions № 4
Khabibullina G.Z., Makletsov S.V., and Mavlyaviev R.M. Integral representation of a solution to three-dimensional elliptic equation with strong degeneration ..... № 11
Kharasova L.S., Timergaliev S.N., and Uglov A.N. Solvability of geometrically nonlinear boundary-value problems for shallow shells of Timoshenko type with pivotally supported edges ..... № 5
Khazhiev I.O. and Fayazov K.S. Conditional correctness of boundary-value problem for composite fourth-order differential equation ..... № 4
Khurramov A.M. and Muminov M.E. On compact distribution of two-particle Schrödinger operator on a lattice ..... № 6
Kiyasov S.N. A method of separation of classes of linear conjugation problems for three-dimensional vector ..... № 8
Koshkin E.V. and Dolgii Yu.F. Use of finite-dimensional approximations in a problem of stabilization of periodic systems with aftereffect ..... № 1
Kosov A.A. Investigation of convergence of large scale almost periodic systems by means of comparison vector functions with components as forms of even degrees ..... № 7
Kosov A.A. and Semyonov E.I. Exact radially-symmetric solutions of a class of nonlinear elliptic systems of equations ..... № 12
Kriger E.N. and Frolenkov I.V. An identification problem of coefficient in the special form at nonlinear lowest term for two-dimensional semilinear parabolic equation with the Cauchy data ..... № 5
Kudryavtseva O.S. Holomorphic maps of the disk into itself with invariant diameter and bounded distortion ..... № 8

Kumykova S.K. and Repin O.A. Nonlocal problem with generalized operators of fractional differentiation for an equation of mixed type in an unbounded domain ..... № 4
Kumykova S.K. and Repin O.A. Boundary-value problem with Saigo operators for mixed type equation of the third order with multiple characteristics ..... № 7
Ladilova A.A. On the existence of deformations of Lie algebras of Z series ..... № 4
Lapin A.V. and Kashtanov N.S. Effectively implementable iterative methods for the linear elliptic variational inequalities with constraints to the gradient of solution ..... № 7
Lapin A.V. and Zalyalov D.G. Penalty method for the state equation for an elliptical optimal control problem ..... № 7
Le Hai Khoi and Abanin A.V. Linear continuous right inverse operator for convolution operator in spaces of holomorphic functions of polynomial growth ..... № 1
Lipacheva E.V. and Ovsepyan K.G. The structure of C^*-subalgebras of the Toeplitz algebra fixed with respect to a finite group of authomorphisms ..... № 6
Lugovaya G.D. and Sherstnev A.N. Description of orthogonal vector fields over W^*-algebra of type I_2 ..... № 4
Makhrova E.N. Structure of dendrites admitting an existence of an arc horseshoe ..... № 8
Makletsov S.V., Khabibullina G.Z., and Mavlyaviev R.M. Integral representation of a solution to three-dimensional elliptic equation with strong degeneration ..... № 11
Marchenkov S.S. and Kalinina I.S. On complexity of problem of satisfiability for systems of countable-valued functional equations ..... № 8
Martem'yanova N.V. The Dirichlet problem for an equation of mixed elliptic-hyperbolic type with variable potential ..... № 11
Mavlyaviev R.M., Khabibullina G.Z., and Makletsov S.V. Integral representation of a solution to three-dimensional elliptic equation with strong degeneration ..... № 11
Mazepa E.A. The positive solutions to quasilinear elliptic inequalities on model Riemannian manifolds ..... № 9
Meshcheryakova E.A. and Dudov S.I. On asphericity of convex body ..... № 2
Mironova S.R., Kats B.A., and Pogodina A.Yu. A problem on a jump on a contour with limiti continuum ..... № 2
Mirotin A.R. and Atvinovskii A.A. On some functional calculus of closed operators in a Banach space. II ..... № 5
Mirsaburov M. and Chorieva S.T. On a problem with shift for degenerate equation of mixed type ..... № 4
Muminov M.E. and Khurramov A.M. On compact distribution of two-particle Schrödinger operator on a lattice ..... № 6
Nguyen Buong, Nguyen Duong Nguyen, and Nguyen Thi Thu Thuy Newton–Kantorovich iterative regularization and generalized discrepancy principle for nonlinear ill-posed equations involving accretive mappings ..... № 5
Nguyen Duong Nguyen, Nguyen Buong, and Nguyen Thi Thu Thuy Newton–Kantorovich iterative regularization and generalized discrepancy principle for nonlinear ill-posed equations involving accretive mappings ..... № 5
Nguyen Thi Thu Thuy, Nguyen Buong, and Nguyen Duong Nguyen Newton–Kantorovich iterative regularization and generalized discrepancy principle for nonlinear ill-posed equations involving accretive mappings ..... № 5
Nguyen Buong, Nguyen Thi Hong Phuong, and Nguyen Thi Thu Thuy Explicit iteration methods for a class of variational inequalities in Banach spaces ..... № 10

Nguyen Thi Hong Phuong, Nguyen Buong, and Nguyen Thi Thu Thuy Explicit iteration methods for a class of variational inequalities in Banach spaces ..... №10
Nguyen Thi Thu Thuy, Nguyen Buong, and Nguyen Thi Hong Phuong Explicit iteration methods for a class of variational inequalities in Banach spaces ..... №10
Ovsepyan K.G. and Lipacheva E.V. The structure of C^*-subalgebras of the Toeplitz algebra fixed with respect to a finite group of authomorphisms ..... №6
Plaksina I.M. and Abdullaev A.R. An estimate of spectral radius of one singular integral operator ..... №2
Pogodina A.Yu., Kats B.A., and Mironova S.R. A problem on a jump on a contour with limit continuum ..... №2
Pribegin S.G. Cesàro means for the functions from the Hardy space in polydisc ..... №4
Rakhmatullaev M.M. New weakly periodic Gibbs measures of Ising model on Cayley tree ..... №11
Ratseev S.M. On minimal Poisson algebras ..... №11
Repin O.A. and Kumykova S.K. Nonlocal problem with generalized operators of fractional differentiation for an equation of mixed type in an unbounded domain ..... №4
Repin O.A. and Kumykova S.K. Boundary-value problem with Saigo operators for mixed type equation of the third order with multiple characteristics ..... №7
Sabitov K.B. Initial-boundary problem for parabolic-hyperbolic equation with loaded summands ..... №6
Sabitov K.B. and Sidorov S.N. Inverse problem for degenerate parabolic-hyperbolic equation with nonlocal boundary condition ..... №1
Safonov V.F. and Bobodzhanov A.A. Asymptotic solutions of Fredholm integro-differential equations with rapidly changing kernels and irreversible limit operator ..... №10
Sakbaev V.Zh. and Yaakbarieh A. Correctness of a problem with initial conditions for parabolic differential-difference equations with shifts of time argument ..... №4
Salakhitdinov M.S. and Islamov N.B. Nonlocal boundary-value problem with Bitsadze–Samarskii condition for equation of parabolic-hyperbolic type of the second kind ..... №6
Salamatin A.A. and Egorov A.G. Optimization problems of supercritical fluid extraction of oil ..... №2
Salimov R.B. Asymptotical representation of singular integral with the Hilbert kernel near a point of weak continuity of density ..... №7
Samokhvalov S.E. and Balakireva E.B. Group-theoretic matching of the length principle and equality principle in geometry ..... №9
Sapronov Yu.I. and Derunova E.V. Application of normalized key functions in a problem of branching of periodic extremals ..... №8
Semyonov E.I. and Kosov A.A. Exact radially-symmetric solutions of a class of nonlinear elliptic systems of equations ..... №12
Shchetinin A.N. On factor-spaces of compact Lie groups by subgrops of co-rank one ..... №6
Shelekhov A.M. and Tolstikhina G.A. On the structure equations of the three-web defined by the core of a given left Bol three-web ..... №8
Sherstnev A.N. and Lugovaya G.D. Description of orthogonal vector fields over W^*-algebra of type I_2 ..... №4
Shiryaeva L.K. On tail dependence for Grubbs' copula-function ..... №12
Shushpanov M.P. Lattices generated by modular elements ..... №12
Shvachko A.V. and Vakarchuk S.B. Inequalities of Kolmogorov's type for derived functions in two variables and application to approximation by an "angle" ..... №11

Sidorov S.N. Nonlocal problems for an equation of mixed parabolic-hyperbolic type with power degeneration ..... №12
Sidorov S.N. and Sabitov K.B. Inverse proflem for degenerate parabolic-hyperbolic equation with nonlocal boundary condition ..... №1
Solov'eva S.A. On one polynomial method of solving integral equations of the third kind №9
Sosov E.N. Main metric invariants of finite metric spaces ..... №5
Stegantseva P.G., Bashova N.P., and Velichko I.G. The listing of topologies close to the discrete one on finite sets ..... №11
