

## Performance of the higher educational establishment liable to self-examination

Name of educational institution

**Elabuga Institute (branch) of the Federal State Autonomous Higher Educational Establishment "Kazan (Volga) Federal University "**

Region,  
mailing address

Republic of Tatarstan  
423600 Tatarstan, Elabuga, Kazanskaya St., 89

Supreme Organization

The Ministry of Education and Science of Russian Federation

№ п/п	Index	unit of measuremen	Value indicator
А	Б	В	Г
<b>1</b>	<b>Educational activity</b>		
1.1	The total number of students enrolled in educational undergraduate programs, speciality programs, graduate programs, including:	Person	4272
1.1.1	full-time education	Person	2314
1.1.2	part-time education	Person	0
1.1.3	correspondence courses	person	1958
1.2	The total number of postgraduates (adjuncts, residents, interns, assistants, trainees) enrolled in teaching staff training educational programs in postgraduate courses, residency program, the program post-graduate course, including:	person	28
1.2.1	full-time education	person	22
1.2.2	part-time education	person	0
1.2.3	correspondence courses	person	6
1.3	The total number of students enrolled in secondary educational programs of vocational training, including:	person	0
1.3.1	full-time education	person	0
1.3.2	part-time education	person	0
1.3.3	correspondence courses	person	0
1.4	Average score-results of the unified state exams of the students, admitted as full-time students for undergraduate program and specialty program under the agreement of higher education training programs	Score	65,39
1.5	Average-results of the additional entrance exams of the students, admitted as full-time students for undergraduate program and specialty program under the agreement of higher education training programs	score	59
1.6	Average score-results of the unified state exams and the results of additional entrance examinations of the students admitted as full-time students for undergraduate program and specialty program at the expense of the respective budgets of the budgetary system of the Russian Federation	Score	72,22
1.7	Number of students-winners and prize-winners of the final stage of the All-Russian Olympiad for schoolchildren, members of Russian national teams participating in international competitions in general subjects correlating to the field and (or) the area of All-Russian Olympiad for schoolchildren, or international competitions, admitted as full-time students for undergraduate program and specialty program without entrance examinations	person	0
1.8	Number of students-winners and prize-winners of Olympiads for schoolchildren admitted as full-time students for undergraduate program and specialty program correlating to the field and (or) the area of Olympiad for schoolchildren without entrance examinations	person	0

1.9	Quantity/Specific density of the number of students entered the university as full-time specific training students	Number of people/%	17 / 2,84
1.10	Specific density of the number of students who study at master's level among all the students of the university	%	0
1.11	Specific density of the number of students who have been awarded a Bachelor's/ Master's degree or a Diploma of a Specialist of other educational institutions , and who have entered the university to get a Master's degree as first-year students (among the students entered the university as full-time students willing to get a Master's degree)	Number of people/%	0 / 0
1.12	The number of the students of an educational institution studying in a educational institution brunch	Number of	-
<b>2</b>	<b>Research Activities</b>		
2.1	The number of quotations in Web of Science counting on 100 academicians	Quantity	-
2.2	The number of quotations in Scopus counting on 100 academicians	Quantity	-
2.3	The number of quotations in Russian Science Citation Index (RSCI) counting on 100 employees counting on 100 academicians	Quantity	-
2.4	The number of articles in Web of Science periodical system counting on 100 academicians	Quantity	-
2.5	The number of articles in Scopus periodical system counting on 100 academicians	Quantity	-
2.6	The number of articles in RSCI periodical system counting on 100 academicians	Quantity	-
2.7	The number of technical, research, design and experimental projects (TRDEP)	Rubles.	17092,2
2.8	The number of TRDEP counting on one academician	Rubles	83,13
2.9	Specific density of income earned from TRDEP in total income of an educational institution	%	4,52
2.10	Specific density of TRDEP done without any help in total income of an educational institution earned from TRDEP	%	100
2.11	Income earned from TRDEP (except the budget resources got from the budget system of the Russian Federation , and State Scientific Funds) counting on one academician	Rubles	2,19
2.12	The number of licensed agreements	Quantity	0
2.13	Specific density of resources got by an educational institution using the items of intellectual property (in the total income of an educational institution	%	0
2.14	The number of teachers and other academicians aged up to 30 without a scientific degree; the number of teachers and other academicians aged up to 35 without a Degree of the Candidate of Science; the number of teachers and other academicians aged up to 40 without a Doctor's Degree among the total number of teachers and academicians	Number of people/%	57 / 23,65
2.15	The number of teachers and other academicians with a Degree of the Candidate of Science among the total number of teachers and academicians of an educational institution	Number of people/%	129,75 / 63,11
2.16	The number of teachers and other academicians with a Doctor's Degree among the total number of teachers and academicians of an educational institution	Number of people/%	12,75 / 6,2
2.17	The number of teachers and other academicians with a Degree of the Candidate of Science and a Doctor's Degree among the total number of teachers and academicians of an educational institution brunch (without part-time teachers)	Number of people/%	-
2.18	The number of scientific journals including electronic ones published by an educational institution	Quantity	0
2.19	The Quantity of grants during the reporting period counting on 100 academicians	Quantity	2,43
<b>3</b>	<b>International Activity</b>		
3.1	The number of foreign students (except the students from the CIS-counties) including full-time students (Bachelor students, Master students and Specialty students).	Number of people/%	1 / 0,02

3.1.1	in full-time course of studies	people/%	0 / 0
3.1.2	in part-time course of studies	people /%	0 / 0
3.1.3	in extramural course of studies	people /%	1 / 0,05
3.2	Number / the specific weight of number of foreign students (cadets) from the CIS countries which are trained on educational programs of a bachelor degree, programs of a specialist training, programs of a magistracy, in the total number of students (cadets), including:	people /%	261 / 6,11
3.2.1	in full-time course of studies	people /%	251 / 10,85
3.2.2	in part-time course of studies	people %	0 / 0
3.2.3	in extramural course of studies	people /%	10 / 0,51
3.3	Number / the specific weight of number of foreign students (cadets) (except the CIS countries) who have graduated educational programs of a bachelor degree, programs of a specialist training, programs of a magistracy, in the general graduation of students (cadets)	people %	0 / 0
3.4	Number / the specific weight of number of foreign students (cadets) from the CIS countries who have graduated educational programs of a bachelor degree, programs of a specialist training, programs of a magistracy, in the general graduation of students (cadets)	people /%	3 / 0,3
3.5	Number / the specific weight of number of the students (military students) of the educational organization who are studying full-time on educational programs of a bachelor degree, programs of a specialist training, programs of a magistracy, trained abroad not less than a semester (trimester), in the total number of students (military students)	people /%	7 / 0,3
3.6	The number of students (military students) of the foreign educational organizations who were trained in the educational organization for full-time courses on educational programs of a bachelor degree, programs of a specialist training, programs of a magistracy, not less than a semester (trimester)	people	1
3.7	Number / the specific weight of number of foreign citizens from among scientific and pedagogical staff in the total number of scientific and pedagogical staff	people /%	0 / 0
3.8	Number / the specific weight of number of foreign citizens (except the CIS countries) from among post-graduate students (postgraduates in a military academy, attending physicians, interns, assistants-trainees) of the educational organization in the total number of post-graduate students (postgraduates in a military academy, attending physicians, interns, assistants-trainees)	people /%	0 / 0
3.9	Number / the specific weight of number of foreign citizens from the CIS countries from among post-graduate students (postgraduates in a military academy, attending physicians, interns, assistants-trainees) of the educational organization in the total number of post-graduate students (postgraduates in a military academy, attending physicians, interns, assistants-trainees)	people /%	0 / 0
3.10	The volume of the means received by the educational organization on performance of research and development from foreign citizens and foreign legal entities	thousand rubles.	0
3.11	The volume of the means from educational activity received by the educational organization from foreign citizens and foreign legal entities	thousand rubles	0
<b>4</b>	<b>Financial and economic activity</b>		
4.1	Income of the educational organization for all types of financial provision (activity)	thousand rubles	378260,6
4.2	Income of the educational organization for all types of financial provision (activity) per one scientific and pedagogical worker	thousand rubles	1839,79
4.3	Income of the educational organization from means from the activity which is bringing in the income per one scientific and pedagogical worker	thousand rubles	422,39
4.4	The ratio of average earnings of the scientific and pedagogical worker in the educational organization (in all types of financial provision (activity)) to an average salary according to region economy	%	151,4
<b>5</b>	<b>Infrastructure</b>		
5.1	The total area of rooms in which educational activity, per one student (cadet) is carried out, including:	sq.m.	39,9
5.1.1	available for the educational organization on the property right	sq.m.	0
5.1.2	assigned to the educational organization on the right of operational management	sq.m.	7,97
5.1.3	provided to the educational organization for rent, free use	sq.m.	31,93

5.2	The number of computers per one student (cadet)	units	0,26
3.1.1	in full-time course of studies	people/%	0 / 0
3.1.2	in part-time course of studies	people /%	0 / 0
3.1.3	in extramural course of studies	people /%	1 / 0,05
3.2	Number / the specific weight of number of foreign students (cadets) from the CIS countries which are trained on educational programs of a bachelor degree, programs of a specialist training, programs of a magistracy, in the total number of students (cadets), including:	people /%	261 / 6,11
3.2.1	in full-time course of studies	people /%	251 / 10,85
3.2.2	in part-time course of studies	people %	0 / 0
3.2.3	in extramural course of studies	people /%	10 / 0,51
3.3	Number / the specific weight of number of foreign students (cadets) (except the CIS countries) who have graduated educational programs of a bachelor degree, programs of a specialist training, programs of a magistracy, in the general graduation of students (cadets)	people %	0 / 0
3.4	Number / the specific weight of number of foreign students (cadets) from the CIS countries who have graduated educational programs of a bachelor degree, programs of a specialist training, programs of a magistracy, in the general graduation of students (cadets)	people /%	3 / 0,3
3.5	Number / the specific weight of number of the students (military students) of the educational organization who are studying full-time on educational programs of a bachelor degree, programs of a specialist training, programs of a magistracy, trained abroad not less than a semester (trimester), in the total number of students (military students)	people /%	7 / 0,3
3.6	The number of students (military students) of the foreign educational organizations who were trained in the educational organization for full-time courses on educational programs of a bachelor degree, programs of a specialist training, programs of a magistracy, not less than a semester (trimester)	people	1
3.7	Number / the specific weight of number of foreign citizens from among scientific and pedagogical staff in the total number of scientific and pedagogical staff	people /%	0 / 0
3.8	Number / the specific weight of number of foreign citizens (except the CIS countries) from among post-graduate students (postgraduates in a military academy, attending physicians, interns, assistants-trainees) of the educational organization in the total number of post-graduate students (postgraduates in a military academy, attending physicians, interns, assistants-trainees)	people /%	0 / 0
3.9	Number / the specific weight of number of foreign citizens from the CIS countries from among post-graduate students (postgraduates in a military academy, attending physicians, interns, assistants-trainees) of the educational organization in the total number of post-graduate students (postgraduates in a military academy, attending physicians, interns, assistants-trainees)	people /%	0 / 0
3.10	The volume of the means received by the educational organization on performance of research and development from foreign citizens and foreign legal entities	thousand rubles.	0
3.11	The volume of the means from educational activity received by the educational organization from foreign citizens and foreign legal entities	thousand rubles	0
<b>4</b>	<b>Financial and economic activity</b>		
4.1	Income of the educational organization for all types of financial provision (activity)	thousand rubles	378260,6
4.2	Income of the educational organization for all types of financial provision (activity) per one scientific and pedagogical worker	thousand rubles	1839,79
4.3	Income of the educational organization from means from the activity which is bringing in the income per one scientific and pedagogical worker	thousand rubles	422,39
4.4	The ratio of average earnings of the scientific and pedagogical worker in the educational organization (in all types of financial provision (activity)) to an average salary according to region economy	%	151,4
<b>5</b>	<b>Infrastructure</b>		
5.1	The total area of rooms in which educational activity, per one student (cadet) is carried out, including:	sq.m.	39,9
5.1.1	available for the educational organization on the property right	sq.m.	0
5.1.2	assigned to the educational organization on the right of operational management	sq.m.	7,97

5.1.3	provided to the educational organization for rent, free use	sq.m.	31,93
5.2	The number of computers per one student (cadet)	units	0,26
5.3	Specific weight of cost of the equipment (no more than 5 years of use) of the educational organization in a total cost of the equipment	%	60,8
5.4	Number of copies of printed educational editions (including textbooks and manuals) from total number of units of storage of a library stock being on the account per one student (cadet)	units	157,59
5.5	Specific weight of the integrated groups of the specialties and the courses of training provided with electronic educational editions (including textbooks and manuals) not less than 20 editions on the main fields of knowledge	%	100
5.6	Number / the specific weight of number of students (cadets) living in hostels, in the total number of students (cadets) needing hostels	people/%	1030 / 78,93
