

## INTELLIGENT DATA ANALYSIS

Throughout the course students are supposed to do data analysis tasks on some data. Tasks and links to theoretical material are presented in the virtual auditory, one task per section. Datasets are uploaded to the department website <https://kms.kpfu.ru/en/ffs>, in the “files for students” section, in “Intelligent Data Analysis” folder. Completed tasks should be sent to teacher’s email [Kaskrin@Gmail.com](mailto:Kaskrin@Gmail.com). Questions on material and tasks can be asked via the same email.
