

## MANCURTISM IN THE PARTICIPANTS' ETHNIC CONSCIOUSNESS EDUCATIONAL PROCESS

*Abstract.* The purpose of the article is to show the peculiarities of the manifestation of mankurtism in the minds of participants in the educational process. Mankurtism is understood as the separation of personality from ethnic roots. This phenomenon is now not only social, cultural, but also psychological and pedagogical, relevant for modern school and higher education. The diagnostic study was conducted on the basis of schools and universities of Tatarstan in 2021-2022. At the same time, a database of archival materials and digital resources was used. In the course of the study, it was found that mankurtism is characteristic of the majority of participants in the educational process and has its own characteristics, positive and negative. These features must be taken into account when building pedagogical systems aimed at fostering citizenship, patriotism, and the formation of norms of intercultural communication at school and university.

*Keywords:* mankurtism, ethnic consciousness, educational process, schoolchildren, students, teachers.
