35.	Pedagogical workers, who have or apply for first qualification category and implement programs of basic and secondary general education in geography	Technology of conducting a present-day geography lesson in conditions of implementation Federal State Education Standards	96
36.	Pedagogical workers, who have or apply for higher qualification category and implement programs of basic and secondary general education in geography	Actual issues of introducing ICT in the educational and educational process in the context of the implementation of Federal State Education Standards in the subject field "Geography"	96
37.	Pedagogical workers, who have or apply for higher qualification category and implement programs of basic and secondary general education in mathematics	Improvement of the subject and methodological competence of the mathematics teacher in preparation for mathematical competitions	32
38.	Pedagogical workers who implement basic and secondary general education programs in mathematics and computer science	The system-activity approach in education and the formation of Universal learning activities (ULA) in the mathematics, computer science lessons and ICT	96
39.	Pedagogical workers, who have or apply for higher qualification category and implement programs of basic and secondary general education in mathematics	Improvement of the professional competences of the mathematics teacher in the context of the realization Federal State Education Standards and the implementation of the professional standard of the teacher	96
40.	Pedagogical workers, who have or apply for first qualification category and implement programs of basic and secondary general education in mathematics	Didactics of the present-day lesson of mathematics in the conditions of realization Federal State Education Standards of basic general education	96
41.	Pedagogical workers, who have or apply for first qualification category and implement programs of basic and secondary general education in	Present-day pedagogical technologies in teaching mathematics and methods for evaluating educational outcomes	96

	mathematics		
42.	Pedagogical workers, who have or apply for first qualification category and implement programs of higher and secondary general education in mathematics	Providing enhanced studying of mathematics in conditions of implementation Federal State Education Standards of basic general education	96
43.	Pedagogical workers, who have or apply for first qualification category and implement programs of basic and secondary general education in mathematics	The methodology of formation of personal, subject and multi-subject results of education in mathematics	96
44.	Pedagogical workers who implement programs of basic general education in mathematics and computer science	Special aspects of preparation for the final attestation in mathematics and physics in conditions of implementation Federal State Education Standards of general education	96
45.	Pedagogical workers, who have or apply for first qualification category and implement programs of basic and secondary general education in Informatics and ICT	Pedagogical technologies and formation of learning and educational process in conditions of Federal State Education Standards implementation (in the field of «Informatics»)	96
46.	Pedagogical workers, who have or apply for first qualification category and implement programs of basic and secondary general education in Informatics and ICT	Technologies for conducting a present-day Informatics and ICT lesson in in the context of Federal State Education Standards implementation	96
47.	Pedagogical workers, who have or apply for higher qualification category and implement programs of basic and secondary general education in Informatics and ICT	System-activity approach in computer science and ICT lessons in the context of Federal State Education Standards implementation	96
48.	Pedagogical workers, who have or apply for first qualification category and implement programs of basic and secondary general education in physics	The method of formation of personal, subject and multi-subject results of education in physics	96
			108
49.	Pedagogical workers, who have or apply for higher qualification category and implement programs of basic and secondary general education in physics	Strategy and tactics of pedagogical skill growth: formation of research competence of students in solving problems of increased difficulty in physics	96
50.	Pedagogical workers, who have or apply for first qualification category and implement programs of basic and secondary general education in physics	Strategies and tactics of growth of pedagogical skill of the teacher of physics in conditions of realization Federal State Education Standards of general education	96
51.	Pedagogical workers who implement basic and secondary general education programs in mathematics, physics, informatics and ICT	Features of the organization of innovative and experimental activity in teaching "Mathematics", "Physics", "Informatics and ICT"	96

52.	Pedagogical workers, who have or apply for first qualification category and implement programs of basic and secondary general education in chemistry	Improvement of the professional competence of chemistry teacher in conditions of implementation Federal State Education Standards of general education	96
53.	Pedagogical workers, who have or apply for higher qualification category and implement programs of basic and secondary general education in chemistry	Formation of the developing educational environment on the subject "Chemistry" in conditions of implementation Federal State Education Standards of general education	96
54.	Pedagogical workers, who have or apply for first qualification category and implement programs of basic and secondary general education in chemistry	Achievement of personal, multi-subject and subject results of education in chemistry	96
55.	Pedagogical workers who implement programs of basic and secondary general education in chemistry and biology	System-activity approach at the lessons of chemistry, biology in conditions of implementation Federal State Education Standards of general education	96
56.	Pedagogical workers who implement programs of basic and secondary general education in chemistry, biology and geography	System-activity approach at the lessons of chemistry, biology and geography in conditions of implementation Federal State Education Standards of general education	96
57.	Pedagogical workers, who have or apply for higher qualification category and implement programs of basic and secondary general education in biology	Improvement of the process of teaching "Biology" in the conditions of implementation Federal State Education Standards of general education	96
58.	Pedagogical workers, who have or apply for first qualification category and implement programs of basic and secondary general education in biology	Realization of effective educational technologies through the improvement of the methodology of teaching biology	96
59.	Pedagogical workers, who have or apply for first qualification category and implement programs of basic and secondary general education in biology	Present-day biology lesson subject to the requirements of Federal State Education Standards	96
60.	Pedagogical workers who have or claim to the highest qualification category, implement basic and secondary general education programs in Tatar language and literature, Chuvash language, Mari language, Udmurt and other languages	A present-day lesson in the Federal State Education Standards context: goals, content, evaluation criteria	96
61.	higher qualification category and implement programs of basic and secondary general education in music	Improvement of the professional competence of the music teacher in the context of the implementation of the Federal State Education Standards of general education	96
62.	Facilitators	Organization of the activity of the facilitator in the context of	64

		the implementation of the system-activity approach	
63.	Pedagogical workers with or claiming the highest qualification category, teachers of additional education for children	Pedagogical innovations in the supplementary education of children	64
64.	Pedagogical workers with or claiming the first qualification category, teachers of additional education for children	Theory, methodology and modern educational technologies of additional education for children	64
65.	Pedagogical workers who implement adapted basic educational programs (teacher - defectologist: teacher - surdopedagog, teacher - tiflopedagog, teacher - oligophrenopedagogue with experience of up to 5 years	Present-day approaches to the teaching of subjects in the context of the implementation of the Special Federal State Educational Standards	96
66.	Pedagogical workers who implement adapted basic educational programs (teacher - defectologist: teacher - faculty, teacher - tiflopedagog, teacher - oligophrenopedagogue), who have or claim to the first qualification category	Innovative forms and technologies of corrective pedagogical work with children with disabilities	96
67.	Pedagogical workers, implementing programs of basic and secondary general education (subject teachers, class teachers) with a work experience of up to 5 years	Development, implementation, monitoring and evaluation of the effectiveness of the adapted educational programs of students with disabilities	32
68.	Pedagogical workers who implement basic and secondary general education programs (subject teachers, class teachers) who have or apply for the first qualification category	Inclusive education of children with disabilities in the context of transition to special Federal state educational standards	96
69.	Teachers-logopedists of pre-school educational organizations having or applying for the first qualification category	Innovative technologies in preschool speech therapy in conditions of implementation Federal state educational standards	64
70.	Teachers-logopedists of general education organizations, preschool educational organizations with an experience of up to 5 years	Differentiated speech therapy massage: various aspects of organizing and conducting	64
71.	Teacher-logopedists of general education organizations, preschool educational organizations with an experience of up to 5 years	Psychological and pedagogical support of disabled children, children with limited health in inclusive educational space	32

72.	Teacher-logopedists of pre-school educational organizations with experience of up to 5 years	The professional activity of the teacher-logopedists in according to the requirements of Federal State Education Standards of Pre-school education educational institution	64
73.	Pedagogical workers of the highest qualification category who implement programs of secondary vocational education on general professional subjects	Features of the organization of innovative and experimental activities in the teaching of general professional disciplines	96
74.	Pedagogical workers of the first qualification category who implement programs of secondary vocational education on general professional subjects	Features of the organization of the educational process in the context of modernization of the secondary vocational education system	96
75.	Pedagogical workers of the first qualification category who implement programs of secondary vocational education on general professional subjects	Organization of active, interactive and traditional forms of training in accordance with secondary vocational education of Federal State Education Standards	96
