

Disformal dualities and the problem of spacetime singularities

Dmitry V. Gal'tsov

Department of Theoretical Physics, Moscow State University,
119899 Moscow, Vorobievsky gory, Russia

Plan of lecture:

1. Singularities in Einstein theory
2. Old scalar-tensor theories
3. Horndeski theories and alike
4. Non-minimal Palatini theories
5. Disformal dualities
6. Exorcising singularities from space-time geometry to scalar sector
