
AUTHOR INDEX TO VOLUME 51

- Abdrakhmanov, A. M.** — A Problem with a Nonlocal Boundary Condition for One Class of Odd-Order Equations. — A. M. Abdrakhmanov and A. I. Kozhanov; (5), 1–10.
- Agachev, Yu. R.** — Convergence of the Polynomial Projection Method for the Solution of Ill-Posed Integrodifferential Equations. — Yu. R. Agachev; (8), 1–13.
- One Multidimensional Weakly Singular Integral Equation. — Yu. R. Agachev and R. K. Gubaidullina; (4), 1–7.
- Ageev, A. L.** — Problem on Separation of Singularities. — A. L. Ageev and T. V. Antonova; (11), 1–7.
- Akhmerova, E. F.** — Asymptotics of Spectrum of a Harmonic Oscillator Perturbed by a Nonsmooth Potential. — E. F. Akhmerova; (11), 69–72.
- Akhmetova, A. N.**, see Aksent'ev, L. A.
- Akivis, M. A.** — Differential Geometry of Veronese-Like Webs. — M. A. Akivis and V. V. Goldberg; (10), 1–28.
- Differential Geometry of Lagrange-Like Webs. — M. A. Akivis and V. V. Goldberg; (12), 17–29.
- Aksent'ev, L. A.** — The Convexity of Surfaces Defined by the Conformal Radius of a Plane Domain. — L. A. Aksent'ev, A. N. Akhmetova, and A. V. Khmel'nitskaya; (4), 8–17.
- Andreev, P. D.** — Semilinear Metric Semilattices on \mathbb{R} -trees. — P. D. Andreev; (6), 1–10.
- Antonov, A. P.** — Smoothness of Sums of Trigonometric Series with Monotone Coefficients. — A. P. Antonov; (4), 18–26.
- Antonova, T. V.**, see Ageev, A. L.
- Aripov, R. G.** — The Complete System of Global Differential and Integral Invariants of a Curve in Euclidean Geometry. — R. G. Aripov and D. Khadzhiyev; (7), 1–14.
- Arteaga, J. R.** — Infinitesimal Ricci Flows of Minimal Surfaces in the Three-Dimensional Euclidean Space. — J. R. Arteaga and M. A. Malakhaltsev; (10), 29–38.
- Avsyankin, O. G.** — Multidimensional Integral Operators with Kernels of Mixed Homogeneity. — O. G. Avsyankin; (8), 63–66.
- Balandin, A. S.** — Exponential Stability of Linear Differential-Difference Equations of Neutral Type. — A. S. Balandin and V. V. Malygina; (7), 15–24.
- Belykh, F. A.** — Real Subalgebras of Small Dimensions of the Matrix Lie Algebra $M(2, \mathbb{C})$. — F. A. Belykh, A. Yu. Borzakov, and A. V. Loboda; (5), 11–23.
- Belykh, T. I.**, see Bulatov, V. P.
- Berestovskii, V. N.** — Poincaré Conjecture and Related Statements. — V. N. Berestovskii; (9), 1–36.
- Bikchantaev, I. A.** — The Riemann Problem on a Three-Sheeted Surface for which the Projections of Branching Points Have One Accumulation Point. — I. A. Bikchantaev; (5), 24–31.
- Borzakov, A. Yu.**, see Belykh, F. A.
- Bruk, V. M.** — Invertible Linear Relations Generated by a Uniformly Well-Posed Problem and a Nonnegative Operator Function. — V. M. Bruk; (1), 1–7.
- Reduction of Generalized S. P. Timoshenko Equations to a Differential Operator Equation of Hyperbolic Type. — V. M. Bruk and V. A. Kry's'ko; (2), 68–70.
- Bulatov, V. P.** — Numerical Solution Methods for Multiextremal Problems Connected with Inverse Problems in Mathematical Programming. — V. P. Bulatov and T. I. Belykh; (6), 11–17.
- Bulatova, M. G.**, see Tanana, V. P.
- Chentsov, A. G.** — Generalized Elements in Problem on Asymptotic Attainability. — A. G. Chentsov; (11), 55–68.
- Chistyakov, V. F.** — Nonlocal Theorems on Existence of Solutions of Differential-Algebraic Equations of Index 1. — V. F. Chistyakov and E. V. Chistyakova; (1), 71–76.
- Chistyakova, E. V.**, see Chistyakov, V. F.
- Cortissoz, J. C.** — The Ricci Flow on the Two Ball with a Rotationally Symmetric Metric. — J. C. Cortissoz; (12), 30–51.
- Derbisher, V. E.**, see Germashev, I. V.
- Derr, V. Ya.** — Dynamical Generalized Functions and the Multiplication Problem. — V. Ya. Derr and D. M. Kinzebulatov; (5), 32–43.
- Deundyak, V. M.** — Discrete Convolution Operators with Discontinuous Symbols. — V. M. Deundyak and G. G. Smolkin; (8), 71–73.
- Dubovikov, D. A.** — An Analog of the Löwner Equation for Mappings of Strips. — D. A. Dubovikov; (8), 74–77.
- D'yachenko, D. M.** — Certain Constants in Absolutely Convergent Fourier Series for Functions from H^ω . — D. M. D'yachenko; (7), 38–44.
- Dyukarev, Yu. M.** — Complete Indeterminacy of the Nevanlinna–Pick Problem in the Class $S[a, b]$. — Yu. M. Dyukarev and I. Yu. Serikova; (11), 17–29.
- Dzhungurova, O. A.** — The Asymptotic of the Necessary Sample Size in Testing the Hypotheses on the Shape Parameter of a Distribution Close to

- the Normal One. — O. A. Dzhungurova and I. N. Volodin; (5), 44–50.
- Eskin, L. D.** — A Generalization of P. Ya. Polubarinova-Kochina's Problem on Basin Drain. — L. D. Eskin; (2), 53–67.
- Esmaganbetov, M. G.** — Exact Jackson–Stechkin Inequalities and Diameters of Classes of Functions from $L_2(R^2, e^{-x^2-y^2})$. — M. G. Esmaganbetov; (2), 1–7.
- Fedotov, A. E.**, see Zadvornov, O. A.
- Gabbasov, N. S.** — A Spline Method for the Solution of Integral Equations of the Third Kind. — N. S. Gabbasov and S. A. Solov'eva; (3), 1–8.
- Gabdulkhaev, B. G.** — Quadrature Formulas of the Highest Trigonometric Accuracy Grade and Their Applications. — B. G. Gabdulkhaev; (7), 25–37.
- Ganenkova, E. G.** — A Theorem on the Regularity of Decrease in Linearly Invariant Families of Functions. — E. G. Ganenkova; (2), 71–74.
- Geit, N. Zh.**, see Geit, V. E.
- Geit, V. E.** — Nonnegativity Criteria for Fourth Degree Polynomials on the Axis. — V. E. Geit and N. Zh. Geit; (8), 67–70.
- Germashev, I. V.** — Properties of Unimodal Membership Functions in Operations with Fuzzy Sets. — I. V. Germashev and V. E. Derbisher; (3), 72–75.
- Gilimshina, V. F.**, see Kul'sarina, N. A.
- Goldberg, V. V.**, see Akivis, M. A.
- Goldberg, V. V.**, see Akivis, M. A.
- Goldberg, V. V.** — Abelian Equations and Rank Problems for Planar Webs. — V. V. Goldberg and V. V. Lychagin; (10), 39–75.
- Gubaidullina, R. K.**, see Agachev, Yu. R.
- Gulin, A. V.** — A Stability Criterion for a Difference Scheme in a Nonlocal Heat Conduction Problem. — A. V. Gulin, N. I. Ionkin, and V. A. Morozova; (6), 18–25.
- Gur'yanov, N. G.** — A Nonsymmetrical Problem of the Elasticity Theory for a Ball. — N. G. Gur'yanov and O. N. Tyuleneva; (11), 8–16.
- Gushkalova, A. G.** — About the Hypothesis on Two Functionals. — A. G. Gushkalova; (6), 26–31.
- Igoshin, V. A.** — Affine Motions of One-Dimensional Quadratic Motions of Nonzero Curvature. — V. A. Igoshin and E. K. Kitaeva; (4), 27–31.
- Ionkin, N. I.**, see Gulin, A. V.
- Ivankov, P. L.** — The Values of Certain Hypergeometric Functions with Irrational Parameters. — P. L. Ivankov; (7), 45–49.
- Karchevskii, M. M.**, see Zadvornov, O. A.
- Kats, B. A.** — The Jump Problem and the Faber–Schauder Series. — B. A. Kats and A. Yu. Pogodina; (1), 13–18.
- Kehayopulu, N.** — Semilattice Composition of Ordered Semigroups. — N. Kehayopulu and M. Tsingelis; (3), 25–32.
- Khadzhiev, D.**, see Aripov, R. G.
- Khismatullin, A. Sh.** — Solution of Boundary Value Problems for One Degenerate B -Elliptic Equation of the 2nd Kind by the Method of Potentials. — A. Sh. Khismatullin; (1), 58–70.
- Khmelnitskaya, A. V.**, see Aksept'ev, L. A.
- Khvorost, O. Yu.** — Stability and Unstability of Quasilinear Systems of Integrodifferential Equations. — O. Yu. Khvorost and Z. B. Tsalyuk; (11), 76–79.
- Kinzebulatov, D. M.**, see Derr, V. Ya.
- Kirichenko, V. F.** — Geodesic Rigidity of Certain Classes of Almost Contact Metric Manifolds. — V. F. Kirichenko and E. A. Polkina; (9), 37–44.
- Kitaeva, E. K.**, see Igoshin, V. A.
- Kokurin, M. Yu.** — Approximation of Solutions to Nonregular Nonlinear Equations by Attractors of Dynamic Systems in a Banach Space. — M. Yu. Kokurin; (1), 19–29.
- Kolenova, E. M.** — Completely Decomposable Torsion-Free Abelian End-Groups. — E. M. Kolenova; (7), 50–53.
- Kopach, M. I.**, see Shuvar, B. A.
- Kopysov, S. P.** — The Application of the Wavelet Transform in the Numeric Averaging of Differential Equations with Quickly Oscillating Coefficients and in Calculation of Effective Characteristics. — S. P. Kopysov and Yu. A. Sagdeeva; (7), 76–79.
- Koreshkov, N. A.** — A Class of Algebras of Associative Type. — N. A. Koreshkov; (3), 33–41.
- Koshcheeva, O. A.** — Depression Conditions for Linear Equations with Major Partial Derivatives. — O. A. Koshcheeva; (6), 42–51.
- Kostin, V. A.** — Evolutional Equations with Singularities in Generalized Stepanov Spaces. — V. A. Kostin and S. V. Pisareva; (6), 32–41.
- Kozhanov, A. I.**, see Abdrakhmanov, A. M.
- Krupka, D.** — The Structure of the Euler–Lagrange Mapping. — D. Krupka; (12), 52–70.
- Krupková, O.** — Lepage Forms, Closed 2-Forms and Second-Order Ordinary Differential Equations. — O. Krupková and G. E. Prince; (12), 1–16.
- Krys'ko, V. A.**, see Bruk, V. M.
- Kul'sarina, N. A.** — Exact Estimate for the Rate of Decrease of a Solution to a Parabolic Equation of the 2nd Kind for $t \rightarrow \infty$. — N. A. Kul'sarina and V. F. Gilimshina; (4), 32–41.
- Kuz'min, M. Yu.** — A Mathematical Model of the Motion of a Nonlinear Viscous Fluid with the Condition of Slip on the Boundary. — M. Yu. Kuz'min; (5), 51–60.
- Lasunskii, A. V.** — Stability of Characteristic Vectors of One Class of Linear Systems of Differential Equations. — A. V. Lasunskii; (2), 8–14.
- Lazareva, V. B.** — On the Problem of Classification of Regular 4-Webs Formed by Pencils of Spheres. — V. B. Lazareva and A. M. Shelekhov; (12), 71–77.

- Leonchik, E. Yu.** — Precise Summability Indices for Functions from Classes A_∞ . — E. Yu. Leonchik and N. A. Malaksiano; (2), 15–24.
- Lipachev, E. K.** — Integral Equations in the Wave Scattering Problem at an Irregular Interface of Domains. — E. K. Lipachev; (8), 33–44.
- Loboda, A. V.**, see Belykh, F. A.
- Loktionov, A. P.** — Elongation and Rotation of a Linear Element under the Continuum Deformation. — A. P. Loktionov; (3), 42–45.
- Lychagin, V. V.**, see Goldberg, V. V.
- Malakhaltsev, M. A.**, see Arteaga, J. R.
- Malaksiano, N. A.**, see Leonchik, E. Yu.
- Malygina, V. V.**, see Sabatullina, T. L.
- Malygina, V. V.**, see Balandin, A. S.
- Mardanov, R. F.** — Solution of One Inverse Boundary Value Problem in Aerohydrodynamics. — R. F. Mardanov; (2), 25–32.
- Mikeš, J.**, see Vavříková, H.
- Minčić, S. M.** — On Generalized Riemannian Spaces Containing Riemannian Subspaces. — S. M. Minčić and L. S. Velimirović; (11), 30–34.
- Mironova, L. B.**, see Zhegalov, V. I.
- Mirotin, A. R.** — Interpolation Sets for the Algebra of Generalized Analytic Functions. — A. R. Mirotin and M. A. Romanova; (3), 46–54.
- Morozova, V. A.**, see Gulin, A. V.
- Nigmedzyanova, A. M.** — The Study of the Main Boundary Value Problems for One Degenerate Elliptic Equation by the Method of Potentials. — A. M. Nigmedzyanova; (1), 30–40.
- Panzhenskii, V. I.** — Motions in Kawaguchi Spaces with Special Metric. — V. I. Panzhenskii; (12), 78–83.
— Almost Hermitian Structures on the Tangent Bundle of Almost Symplectic Manifold. — V. I. Panzhenskii and O. V. Sukhova; (11), 73–75.
- Pisareva, S. V.**, see Kostin, V. A.
- Pleshchinskii, I. N.** — Integral Equations in the Coupling Problem for Semiopen Dielectric Waveguides. — I. N. Pleshchinskii and N. B. Pleshchinskii; (5), 61–78.
- Pleshchinskii, N. B.**, see Pleshchinskii, I. N.
- Pogodina, A. Yu.**, see Kats, B. A.
- Pokorná, O.**, see Vavříková, H.
- Polkina, E. A.** — Curvature Identities for Almost Contact Metric Manifolds. — E. A. Polkina; (7), 54–57.
- Polkina, E. A.**, see Kirichenko, V. F.
- Prince, G. E.**, see Krupková, O.
