## Credit Calculation

One(1) unit of credit requires 45 hours of academic work in the context of the course structure, academic outcomes, and self-directed learning other than coursework.

Course Type	Course Hours
Lectures and Seminar	15 hours (1.5 hours per week × 10 weeks)
Foreign Languages	22.5 hours (1.5 hours per week × 15 weeks)
Experiments and Practical Training	30 hours (3 hours per week × 10 weeks)
Physical Education	30 hours (1.5 hours per week × 10 weeks × 2 subjects)

Note: The University of Tsukuba calculates 1 class period (75 minutes) as 1.5 hours. In regard to courses involving practical training or independent study, each school and college assigns a certain number of credits.

Each year, a specific topic will be given in class and we will have a fieldtrip to the National Theater to watch Kabuki, Noh, or Bunraku. Students are expected to work cross-culturally in groups, and come up with their own analysis/observation on the topic of study.	This is an intensive course which CANNOT be registered through TWINS. Please check the posted notice for specific dates and time of the class. All students must be able to attend the four class periods as well as the fieldtrip to Tokyo on the weekend. Priority is given to short-term exchange students and G30 program students who are "International Studies" majors. Japanese students who expect to enroll in this class must be able to pay for their theater tickets. (TWINS上での登録はできません。詳細は掲示をよく確認してください) Lectures are conducted in English.
BC11401	Introductory Econometrics	2.0	2 - 4	Fall Semester	Intensive	3A408		This course provides an introduction to basic econometric methods. Simple regression analysis, properties of the regression coefficients and hypothesis testing, and multiple regression analysis will be covered. Advanced topics such as instrumental variables and limited dependent variable models will be possibly included. This course prerequires Introductory Statistics.	平成25年度以降入学者は国際開発学科学目(BC12061)、平成24年度以前入学者は国際関係学科学目(BC11401)として履修すること。 Identical to BC12061 and BE22231. Lectures are conducted in English. JTP
BC12031	Introductory Statistics	2.0	1, 2	FallAB	Tue1,2	3K404		This course provides an introduction of fundamental concepts and practical methods of statistical inference. Descriptive statistics, basic of probability, random variables, sampling, point estimation, confidence interval, and hypothesis testing will be covered. A preview of the regression analysis, the detail of which will be covered in Introductory Econometrics, will be possibly provided.	Identical to BE22291. Lectures are conducted in English. JTP
BC12061	Introductory Econometrics	2.0	2 - 4	Fall Semester	Intensive	3A408		This course provides an introduction to basic econometric methods. BC12271	Population and History in Japanese Perspective	2.0	2 - 4	FallAB	Tue/Thu 3	3K302	Futoshi Kinoshita	This course is designed to help students gain a better understanding of Japanese society by examining its demographic traits, e.g., past population growth, changes in fertility and mortality, and ageing. The aim of the course is to grasp such traits quantitatively as well as qualitatively. Through the course, students will become familiar with how to measure demographic events, such as birth and death, in an accurate and objective fashion. The topics for measurement include calculating crude rates and total fertility rate, standardization, indirect estimation, and construction of life table. By computing various demographic indices of Japan and comparing them with those of other societies, students will be able to better understand Japanese demographic characteristics from a comparative perspective.	Identical to BE22561. Lectures are conducted in English. JTP
BC12301	Personal Computer and Japanese Word Processing	1.0	2 - 4	FallAB	Thu6	3K203	Futoshi Kinoshita	This course is designed to help international students acquire the knowledge and skills of word processing of the Japanese language. Students will get practical experience of word processing through the use of Microsoft Word and other software packages, and also will learn the rules and formalities of Japanese writing. The course is intended for students who have such basics as hiragana, katanana and about three hundred (300) kanji.	Identical to BE22541. Lectures are conducted in English. JTP

BC51551	English Discussion Seminar III	2.0	1, 2	FallAB	Thu5,6	3K301	Charles Edward Covell	This advanced course has no goal other than to encourage the students who attend it to engage with me on a basis of strict equality in the free, open and robust discussion of matters of our mutual concern. To this end, I lay down no set agenda in advance. Instead, I intend that the agenda for the course should be determined through consultation with participating students, and that there should be no prior restrictions placed on the subject—matters to be proposed by students as appropriate for discussion. If it is my personal preference that we discuss issues to do with contemporary politics, then it is also my hope and expectation that we will be able to range widely in the discussion of issues to do with law and economics and issues to do with the arts and media and with culture and society.	国際総合学類の学籍番号奇数番の学生のみ対象 Lectures are conducted in English. BC51561	English Discussion Seminar III	2.0	1, 2	FallC	Thu/Fri3,4	3B208	Leslie Tkach Kawasaki	During this course, students will participate in weekly discussions concerning current events, emphasizing media, politics, and news. We will also do a combination of pairwork exercises and small-group exercises.	
<p>ObjectivesThe general goals for this class are to help students with the following: (1) Practice communicating their opinions and ideas to other individuals as well as groups in an easily understandable, persuasive, and compelling manner; and(2) Improve their practical presentation skills in English.Grading SystemClass participation (including attendance) 20%Group project 25%Individual project/paper 30%Weekly assignments 25%Total 100%Class MaterialsThere is no textbook for this course, as the focus of the class will be on discussion. However, the instructor may assign short reading materials that may help in generating discussion. We will use Moodle for managing our class resources, and students are expected to be able to use Moodle (no introduction to Moodle will be given during class time).Assessment Explanation1. Class participation and attendance (20% of final grade)Since participation and discussion are important features of this class, you will be marked on your class participation activities and attendance. Enthusiasm, eagerness, commitment to improving one's English, and being unafraid to make mistakes are important elements in this class. 2. Group Project (25% of final grade)You will be assigned a group project to complete during the semester. Your group will make its presentation towards the end of the semester. More information about the group project will be distributed by the third class.3. Individual Project/Paper (30% of final grade)The instructor will give you a list of suggested topics and formats during the fourth class, and you can choose one theme among them for your final paper/project. Other topics may also be considered, they must be approved by the instructor first. Your project/paper is due on the last day of class.4. Weekly Writing Assignment (25% of final grade)Please submit your writing assignment each week (see schedule) via Moodle. The topics for each assignment will be given in class. Your assignment will range from one to two A4 typed pages. A link will be posted each week in Moodle for you to submit your assignments. Assignments must be submitted on time (due by 15:00 on Thursday). Moodle will not accept late assignments, and the instructor will not accept assignments sent as attachments to email or submitted in class unless you have made clear prior arrangements and there are exceptional circumstances.*** To obtain full credit for the weekly writing assignment, you must submit 5 out of 7 assignments. You are allowed to miss one weekly assignment (no questions asked). If you submit 2 or less assignments, regardless of your participation or achievements in other assessment areas, you will automatically lose one grade (i.e., A to B, B to C, etc.) Lectures are conducted in English. ## Courses on Japanese-Related Subjects (日本語・日本事情等に関する科目)

Courses on Japan-related subjects are established for international students or returnee students who have attended secondary education in a foreign country for a considerable period of time. The lectures are given in Japanese. Those students who wish to attend the courses listed below should consult instructors before registration.

日本語・日本事情等に関する科目は、外国人留学生及び外国において相当の期間、中等教育を受けた学生（帰国生）を対象に設けられた科目で、日本語による講義です。受講を希望する人は履修登録をする前に担当教員に相談してください。

7290061	Japanese Issues VI(Living and Learning among the Japanese)	1.0	1 - 2	FallAB	Fri2	9L202	Cade Conlan Bushnell	In this course, we will read about and discuss various topics relating to learning Japanese in Japan.	Limited to 30 students Lectures are conducted in English. JTP

#### 4. Undergraduate Program of International Social Studies (社会国際学教育プログラム)

Course No.	Title	Credits	Suggested Year for Enrollment	Term	Time	Class Room	Instructor	Description	References
BE11011	International Social Studies I	2.0	1	Fall/AB	Thu4,5	3A408	Ioshiaqui Edson Urano, Tomoko Ishikawa	The aim of this course is to provide the basic understanding of international law and international dispute settlement (in weeks 1-5). Moreover, this course aims to provide an overview of the major trends on international migration, including key migration theories and patterns of international migration (in weeks 6-10).	Lectures are conducted in English. JTP
BE21041	Academic Writing for Social Sciences I	2.0	1, 2	Fall/C	Intensive		Delgado Rodolfo	This course introduces a mix of practical and academic writing tasks with the aim of building the skills needed to operate in a student environment. Students will focus on grammar and punctuation as they practice writing different types of essays. Tasks will be set both in class and at home.	for non-native Lectures are conducted in English. JTP equivalent to "English Writing I" in 2010-2012.
BE21071	Japanese Learning Support I	2.0	1, 2	Fall/AB	Mon3,4	3A311	TAKASHI TANAKA	This course is designed to support you to acquire the basic language skills of reading Academic Japanese. When students of social sciences read some technical books or papers, they may find some complicated expression used. The aim of this class is to master the reading strategies and to understand the essence of these sentences.	JTP
BE21081	Japanese Learning Support II	2.0	1, 2	Fall/C	Mon3,4 Thu1,2	3A311	TAKASHI TANAKA	Although this course aims to built all four language skill (reading, writing, listening, and speaking), there will be focus of listening and speaking	JTP
BE21121	Contemporary World Politics	2.0	1, 2	Fall/C	Intensive		Jeffrey J Hall	Exposes students to contemporary debates in international environmental politics and sustainable development theory and practice	JTP Lectures are conducted in English. JTP G-course
BE21151	Readings of Japanese Studies	2.0	2	Fall/C	Intensive	3A213		The course introduce students to perspectives on contemporary Japan.	equivalent to "Readings of Japanese Studies I" in 2010 Lectures are conducted in English. JTP G-course
BE21201	International Economics	2.0	2	Fall/AB	Thu5,6	3A304	Yoshinori Kurokawa	This course will introduce students to basic micro, macro and international economic theories and their applications to real world data about international trade and finance. I will emphasize the usefulness of basic international economic theory in understanding international economic issues. This course does NOT require BC51061 Introductory Microeconomics or BC51081 Intro-Intermediate Macroeconomics as a prerequisite. In class, I will explain all necessary background to understand this course.	Identical to BC51071. Lectures are conducted in English. JTP
BE21231	Intro-Intermediate Macroeconomics	2.0	2	Fall/AB	Wed1,2	3A213	Hisahiro Naito	This course covers the basic concepts in macroeconomics. Topics include the IS-LM model, aggregate demand, aggregate supply and the Phillips curve, monetary and fiscal policy, rational expectations, real business cycle models, micro foundations, and long-run economic growth.	Identical to BC51081. Lectures are conducted in English. JTP
BE21241	Media Politics	2.0	1, 2	Fall/AB	Fri3,4	3A416	Leslie Tkach Kawasaki	How does the media, in all its various formats, interact with politics? From "traditional" media, such as newspapers and television, to new media formats including websites, blogs and social media channels, in this course, students will examine the intersection between media and politics from historical, theoretical, topic-based, and consumer/producer perspectives. BE22231	Introductory Econometrics	2.0	2 - 4	Fall Semester	Intensive	3A408		This course provides an introduction to basic econometric methods. Simple regression analysis, properties of the regression coefficients and hypothesis testing, and multiple regression analysis will be covered. Advanced topics such as instrumental variables and limited dependent variable models will be possibly included. This course preresquires Introductory Statistics.	平成25年度以降入学者は国際開発学科目(BC12061)、平成24年度以前入学者は国際関係学科目(BC11401)として履修すること。 Identical to BC11401 and BC12061. Lectures are conducted in English. JTP
BE22291	Introductory Statistics	2.0	1, 2	Fall/AB	Tue1,2	3K404		This course provides an introduction of fundamental concepts and practical methods of statistical inference. Descriptive statistics, basic of probability, random variables, sampling, point estimation, confidence interval, and hypothesis testing will be covered. A preview of the regression analysis, the detail of which will be covered in Introductory Econometrics, will be possibly provided.	Identical to BC12031. Lectures are conducted in English. JTP
BE22371	International Labour Law	2.0	2 - 4	Fall/C, Spr Vac	Intensive		Shin Yamada	To begin with getting basic knowledge in "international law" and "social protection", the course will treat the mechanism and context of international labour law and social security.	Identical to BB28791 and BC11111. Lectures are conducted in English. JTP G-course
BE22541	Personal Computer and Japanese Word Processing	1.0	1 - 4	Fall/AB	Thu6	3K203	Futoshi Kinoshita	This course is designed to help international students acquire the knowledge and skills of word processing of the Japanese language. Students will get practical experience of word processing through the use of Microsoft Word and other software packages, and also will learn the rules and formalities of Japanese writing. The course is intended for students who have such basics as hiragana, katanana and about three hundred (300) kanji.	Identical to BC12301. Lectures are conducted in English. JTP
BE22551	Outline of Japanese Education	2.0	2 - 4	Fall/AB	Tue3,4	3K102	Masako Shibata	This course is offered to students who are interested in the historical development of Japanese education. The course looks at the processes of the foundation of the Japanese education system and the formation of a modern state in Japan. Special reference is made to the past and present dimensions of patterns of the cross-national transfer of policy for education. Thus international and comparative perspectives are welcome throughout the course.	Identical to BC12251. Lectures are conducted in English. JTP
BE22561	Population and History in Japanese Perspective	2.0	2 - 4	Fall/AB	Tue/Thu 3	3K302	Futoshi Kinoshita	This course is designed to help students gain a better understanding of Japanese society by examining its demographic traits, e.g., past population growth, changes in fertility and mortality, and ageing. The aim of the course is to grasp such traits quantitatively as well as qualitatively. Through the course, students will become familiar with how to measure demographic events, such as birth and death, in an accurate and objective fashion. The topics for measurement include calculating crude rates and total fertility rate, standardization, indirect estimation, and construction of life table. By computing various demographic indices of Japan and comparing them with those of other societies, students will be able to better understand Japanese demographic characteristics from a comparative perspective.	Identical to BC12271. Lectures are conducted in English. JTP
BE22571	Population and Development	2.0	2 - 4	Fall/AB	Tue/Thu 3	3K301	Futoshi Kinoshita	The course is designed to expose students to various population issues and the field of demography, with emphasis on demographic theories and empirical materials of Asian countries. The topics to be covered include historical patterns of population growth, modernization and population, technological progress and population, population and the environment, and population policy.	Identical to BB11461 and BC12261. Lectures are conducted in English. JTP、平成17年度までの「アジアと人口」に相当
BE22701	Academic Debate for Social Sciences	2.0	2 - 4	Fall/AB	Thu1,2	3A214	Abu Girma Moges	This course is designed for students to develop and advance their skill in making logical, persuasive, and compelling arguments in favor or against topical issues in social sciences. The class is organized in such a way that students identify topics for their class presentation, make background research on selected topics in social sciences, and make their argument in an academic setting.	TOEFL-IBT:61 or higher, TOEIC:600 or higher, IELTS:5.0 or higher Lectures are conducted in English. JTP G-course G-course with prerequisites
BE22821	History of Economic Thought	2.0	2 - 4	Fall/AB	Tue1,2	3A212	Abu Girma Moges	The course is about the history, philosophy and evolution of economic ideas and thoughts. We review critically the different schools of economic thoughts from the classical to the modern to provide students with a comprehensive understanding of the origin and philosophy of economics and the economists behind such powerful ideas.	Identical to BC16021. Lectures are conducted in English. JTP

Course No.	Title	Credits	Suggested Year for Enrollment	Term	Time	Class Room	Instructor	Description	References
BE22831	Human Resource Management	1.0	2 - 4	FallAB	Wed3	3B204	Martin Pohl	This course links up with the academic goal of gaining an understanding of human resources in the context of management	Identical to BC12911. Lectures are conducted in English. JTP G-course
BE22841	International Management	1.0	2 - 4	FallAB	Intensive		Tan Caroline	This course explores the dynamic global environment of business management, by looking at the political, legal, technological, competitive and cultural factors that shape corporations worldwide.	Biennial Course (offered in odd years) Lectures are conducted in English. JTP
BE22871	Contemporary Issues in Developing Countries	2.0	2 - 4	FallAB	Fri3,4	3B405	Yuko Nakano	The goal of this course is to understand contemporary and important economic and social issues in developing countries. We also analyze statistical data related to the topics.	Identical to BB41401 and BC12121. Lectures are conducted in English. JTP

### 5. Interdisciplinary Program in Life and Environmental Sciences(生命環境学際プログラム)

Course No.	Title	Credits	Suggested Year for Enrollment	Term	Time	Class Room	Instructor	Description	References
EG20014	Programming I	1.0	2, 3	FallAB	Thu1	2D202	Yukihiko Tokunaga(Toquenaga)	In this lecture, students will learn programming techniques for manipulating a variety of data. They will also learn simulation techniques with individual-based models. The programming language used is Ruby.	Identical to EB60014. Lectures are conducted in English. JTP
EG23131	Biotechnology Literacy	1.0	2, 3	FallC	Intensive		Kazuo Watanabe,Akira Kikuchi,Michiyuki Ono,Taichi Oguchi	Topics covering ethical, legal and social issues in life & environmental sciences.	Identical to EB83161. Lectures are conducted in English. 1/7-1/8 JTP CDP G-course EB83131 修得者の履修は認めない。
EG29103	Laboratory and Field Studies in Land Biology	1.5	2	Spr Vac	Intensive	Sugadaira	Ryuichiro Machida,Kensuke Yahata	A four-day residential course held at the Sugadaira Montane Research Center. The aim of this course, through animal tracking, bird watching, collecting insects, is to provide genuine experience of the qualities of nature and wild animals in snowy areas.	Identical to EB09103. Lectures are conducted in English. 3/7-3/11 JTP
EG30221	Plant Taxonomy II	1.0	2, 3	FallAB	Fri2	2C101	Ken-ichiro ISHIDA,Takeshi Nakayama	Diversity, classification, morphology, ultrastructure, life history and phylogeny of green plants, including chlorophytes and land plants.	Identical to EB50221. Lectures are conducted in English. JTP
EG31021	Marine Biogeochemistry II	1.0	2, 3	FallA	Intensive		Takeo Hama,Shigeki Wada	This lecture will focus on the biogeochemical cycle of carbon with special reference to the production, transformation and decomposition of organic matter in ocean.	Identical to EB51021. Lectures are conducted in English. 10/4-10/5 JTP
EG31171	Current Topics in Animal Evolution	1.0	2, 3	FallAB	Wed2	2C101	Hiroshi Wada,Ryuichiro Machida,Masanao Honda,Kensuke Yahata	Lectures will cover topics on taxonomy, biogeography and EvoDevo of Arthropods and Chordates.	Identical to EB59171. Lectures are conducted in English. JTP
EG32131	Chemical Ecology	1.0	2, 3	FallAB	Fri4	2C107	Yooichi Kainoh,Shigeru Matsuyama,Keiko Yamaji,Seiichi Furukawa,Natsuko Kinoshita	This lecture introduces chemical aspects of relationships between individual insects, animals, plants and microorganisms of the same (pheromone) or different (allelochemicals) species.	Identical to EB82131. Lectures are conducted in English. JTP

Course No.	Title	Credits	Suggested Year for Enrollment	Term	Time	Class Room	Instructor	Description	References
EG32921	Marine Biology II	1.0	2, 3	FallAB	Wed3	2C310	Kazuo Inaba, Yasunori Saito, Yasunori Sasakura, Shunsuke Yaguchi, Kogiku Shiba, Hiroaki Nakano, Shigeaki Wada, Koetsu Kon, Takeo Horie, Sylvain Leonard Georges Agostini	Lecture will provide several topics on marine organisms, including fertilization, cilia and flagella, gene-manipulation, development, self-non-self recognition, evolution, animal behavior, population ecology and marine environment. The teaching staff of Shimoda Marine Research Center will tell you about recent progress of their own research.	Identical to EB72921. Lectures are conducted in English. JTP
EG34021	Biometry II	1.0	2, 3	FallAB	Fri3	2D202	Yukihiko Tokunaga (Toquenaga)	This lecture introduces the dark side of statistics. Starting with randomization techniques, students will learn relationships among different domains of statistical ideas: parametric, nonparametric, null hypothesis significance testing, information-theoretic methods, and the Bayesian methods.	Identical to EB64021. Lectures are conducted in English. JTP
EG34221	Metabolic and Physiological Chemistry II	1.0	2, 3	FallAB	Thu1	2C310	Iwane Suzuki	Nitrogen metabolism, sulfur metabolism, metabolic regulatory mechanisms and the function of trace metals in cellular metabolism are main topics.  The main topics for this course will be acclimation process of cellular and energy metabolisms response to the changes in intracellular and extracellular environments. It will be discussed about response and regulations of gene expression, enzymatic reaction, transport and signal transduction system.	Identical to EB74221. Lectures are conducted in English. JTP EB74231, EG34231 修得者の履修は認めない。
EG35031	Molecular Developmental Genetics	1.0	2, 3	FallAB	Fri3	2B411	Katsuo Furukubo-Tokunaga	Study of the mechanism of development is one of the most fascinating areas in current biology. This lecture focuses on the genetic programs that are conserved from fly to human beyond apparent morphological diversity. It also introduces fundamental aspects of nervous system development including network and synaptic plasticity that are essential to higher brain functions such as memory.	Identical to EB72131. Lectures are conducted in English. JTP
EG35131	Molecular Biology III	1.0	2, 3	FallAB	Thu3	2B412	Tomoki Chiba	Proteins are in a dynamic state, which is regulated by protein synthesis and degradation pathways. Each protein is degraded in a degree of selectivity, and its regulation is essential for the cell homeostasis and viability. In this class, we will learn the latest findings on the molecular mechanism of selective protein degradation and its physiological importance.	Identical to EB71131. Lectures are conducted in English. JTP
EG38131	Vertebrate Evolution	1.0	2, 3	FallAB	Tue3	2D306	Louis John Irving	This course looks at the major transitions during vertebrate evolution, particularly focussing on the transition between water and land, and the adaptations which facilitated that transition. The diversification of animal life on land, and the subsequent return of some groups to water will be studied. This course will have a strong evolutionary biology focus.	Identical to EB08131. Lectures are conducted in English. JTP
EG39101	Protistology	1.0	2, 3	FallC	Fri2,3	2C310	Ken-ichiro ISHIDA, Yosuke Degawa, Osamu Numata, Hidekazu Kuwayama, Shinichi Miyamura	Topics in protistology. Cellular evolution, cell biology, sex and reproduction, phylogeny and ecology of protists will be the subjects of this lecture.	Identical to EB59101. Lectures are conducted in English. JTP
EG50031	Cell Structure and Function	1.0	2, 3	FallAB	Fri5	2D206	DeMar Taylor	Lectures and discussions will concentrate on cell structure and function as related to 1) membranes, 2) mitochondria, 3) chloroplasts, 4) intracellular transport, 5) cell communication, 6) cell cycle and 7) cell communities.	Use English Textbook Identical to EC31251. Lectures are conducted in English. JTP
EG60431	Special Seminar IV	2.0	1 - 3	Annual	by request		Dean and others, Nakao Nomura	Seminar on the special research related with agro-biological resource sciences for each individual student.	JTP Identical to EC00041. Lectures are conducted in English.
EG60443	Special Seminar V	2.0	1 - 3	Annual	by request		Dean and others, Nakao Nomura	Field practice on the special research related with agro-biological resource sciences for each individual student.	JTP Identical to EC00053. Lectures are conducted in English.
