

Казанский федеральный университет
Институт фундаментальной медицины и биологии

Кафедра - морфологии и общей патологии

Дисциплина – **нейроанатомия** (третий семестр)

Специализация – лечебное дело, стоматология, медицинская биохимия, медицинская биофизика,
медицинская кибернетика

Перечень образований, которые необходимо показывать, называть на русском языке

SYSTEMA NERVOSUM CENTRALE

- | | | |
|---|--|---------------------------------------|
| 1. Fissura mediana anterior medullae spinalis | 49. Crus cerebri | 104. Crus anterior capsulae internae |
| 2. Sulcus medianus posterior medullae spinalis | 50. Fossa interpeduncularis | 105. Genu capsulae internae |
| 3. Conus medullaris | 51. Tectum mesencephali | 106. Crus posterior capsulae internae |
| 4. Filum terminale | 52. Lamina quadrigemina | 107. Cortex cerebri |
| 5. Cornu anterius | 53. Colliculus inferior | 108. Fissura longitudinalis cerebri |
| 6. Cornu posterius | 54. Colliculus superior | 109. Fissura transversa cerebri |
| 7. Radices posteriores | 55. Substantia nigra | 110. Fissura lateralis cerebri |
| 8. Intumescencia lumbosacralis | 56. Brachium colliculi inferioris | 111. Hemispherium cerebri |
| 9. Intumescencia cervicalis | 57. Brachium colliculi superioris | 112. Lobus parietalis |
| 10. Segmentum medullae spinalis | 58. Epithalamus | 113. Lobus frontalis |
| 11. Cauda equina | 59. Habenula | 114. Lobus occipitalis |
| 12. Medulla oblongata | 60. Commissura habentularum | 115. Lobus temporalis |
| 13. Fasciculus gracilis | 61. Corpus pineale | 116. Lobus insularis |
| 14. Fasciculus cuneatus | 62. Thalamus | 117. Gyrus precentralis |
| 15. Pyramis medullae oblongatae | 63. Corpus geniculatum mediale | 118. Gyrus frontalis superior |
| 16. Oliva | 64. Corpus geniculatum laterale | 119. Gyrus frontalis inferior |
| 17. Sulcus dorsolateralis retroolivaris medullae oblongatae | 65. Metathalamus | 120. Gyrus frontalis medius |
| 18. Obex | 66. Recessus supraopticus | 121. Gyrus postcentralis |
| 19. Tuberculum gracile | 67. Hypothalamus | 122. Gyrus supramarginalis |
| 20. Tuberculum cuneatum | 68. Chiasma opticum | 123. Gyrus angularis |
| 21. Pedunculus cerebellaris inferior | 69. Tractus opticus | 124. Gyrus temporalis superior |
| 22. Pedunculus cerebellaris superior | 70. Corpus mammillare | 125. Gyrus temporalis medius |
| 23. Pedunculus cerebellaris medius | 71. Tuber cinerium | 126. Gyrus temporalis inferior |
| 24. Trigonum nervi hypoglossi | 72. Infundibulum | 127. Gyrus cinguli |
| 25. Trigonum nervi vagi | 73. Sulcus hypothalamicus | 128. Gyrus parahippocampalis |
| 26. Pons | 74. Foramen interventriculare | 129. Cuneus |
| 27. Pars ventralis pontis | 75. Fornix | 130. Uncus |
| 28. Pars dorsalis pontis | 76. Bulbus olfactorius | 131. Sulcus centralis |
| 29. Ventriculus quartus | 77. Tractus olfactorius | 132. Sulcus precentralis |
| 30. Stria medullaris ventriculi quarti | 78. Trigonum olfactorium | 133. Sulcus frontalis superior |
| 31. Fossa rhomboidea | 79. Substantia perforata anterior | 134. Sulcus frontalis inferior |
| 32. Colliculus facialis | 80. Corpus callosum | 135. Sulcus postcentralis |
| 33. Velum medullare superius | 81. Truncus corporis callosi | 136. Sulcus temporalis superior |
| 34. Velum medullare inferius | 82. Genu corporis callosi | 137. Sulcus calcarinus |
| 35. Area vestibularis | 83. Rostrum corporis callosi | 138. Sulcus temporalis inferior |
| 36. Eminentia medialis fossae rhomboidei | 84. Crus fornicis | 139. Sulcus corporis callosi |
| 37. Sulcus basilaris pontis | 85. Corpus fornicis | 140. Sulcus cinguli |
| 38. Sulcus medianus fossae rhomboidei | 86. Columna fornicis | 141. Sulcus collateralis |
| 39. Sulcus limitans fossae rhomboidei | 87. Septum pellucidum | 142. Sulcus parietooccipitalis |
| 40. Cerebellum | 88. Ventriculus lateralis | 143. Tentorium cerebelli |
| 41. Flocculus | 89. Pars centralis ventriculi lateralis | 144. Falx cerebri |
| 42. Vermis cerebelli | 90. Cornu anterius ventriculi lateralis | 145. Falx cerebelli |
| 43. Hemispherium cerebelli | 91. Cornu posterius ventriculi lateralis | 146. Sinus rectus |
| 44. Cortex cerebelli | 92. Cornu inferius ventriculi lateralis | 147. Sinus occipitalis |
| 45. Arbor vitae cerebelli | 93. Nucleus caudatus | 148. Sinus sphenoparietalis |
| 46. Nucleus dentatus | 94. Caput nuclei caudatus | 149. Sinus petrosus inferior |
| 47. Mesencephalon | 95. Cauda nuclei caudatus | 150. Sinus cavernosus |
| 48. Aqueductus mesencephali | 96. Corpus nuclei caudatus | 151. Sinus petrosus superior |
| | 97. Nucleus lentiformis | 152. Sinus sigmoideus |
| | 98. Globus pallidus | 153. Sinus sagittalis inferior |
| | 99. Putamen | 154. Diaphragma sellae |
| | 100. Claustrum | 155. Tela choroidea ventriculi quarti |
| | 101. Capsula extrema | 156. Ligamentum denticulatum |
| | 102. Capsula externa | |
| | 103. Capsula interna | |
