“Comprehensive Support for Children with Autism Spectrum Disorder (ASD)”

Dear colleagues!

We invite you to participate in the International Scientific Seminar

**«TRANSFORMATION OF TEACHER TRAINING MODELS FOR WORKING WITH
CHILDREN WITH ASD IN THE BRICS COUNTRIES: DISCUSSIONS IN SEARCH OF
QUALITY»**
March 26, 2025

Pedagogical workers, psychologists, scientists, employees of ministries and agencies, and students are invited to participate in the International Scientific Seminar

«Transformation of teacher training models for working with children with ASD in the BRICS countries: discussions in search of quality»,

dedicated to the development of professional competencies of specialists working with individuals with Autism Spectrum Disorder.

The seminar is timed to coincide with World Autism Awareness Day, established by the UN General Assembly on December 18, 2007, which is observed annually on April 2.

Goal of the seminar: analysis of current issues in the development of the professional training system for teachers to integrate new methods in the education of individuals with ASD and other mental disorders.

Goal of the seminar: analysis of current issues in the development of the professional training system for teachers to integrate new methods in the education of individuals with ASD and other mental disorders.

Objectives of the seminar:

1. Discuss current research in the field of specialists working with individuals with ASD.
2. Share successful practices and methods for working with individuals with ASD, including approaches to education, therapy, and social integration.
3. Identify directions for creating new courses and professional development programs to meet the current needs of specialists.
4. Establish cooperation in developing interdisciplinary projects.
5. Discuss strategies for raising awareness of autism and protecting the rights of people with ASD and their families.
6. Develop recommendations to improve the quality of specialists' work, based on the discussions and conclusions of the seminar.

Main areas discussed during the event:

1. Contemporary trends in professional education: analysis of current trends in the education system and training of specialists working with people with Autism Spectrum Disorder (ASD), including new methods, technologies, approaches, and programs that foster the development of professional skills.

2. Technological innovations and new tools: consideration of the impact of modern technologies on professional competencies, including the use of digital resources, online platforms, and tools to increase the efficiency of specialists' work.
3. Innovative strategies for training and professional development: best practices for professional qualification improvement of specialists working with ASD population;
4. The specialist's personality: issues of psychological and professional readiness of specialists working with people with ASD.

Main areas discussed during the event:

In the context of the growing relevance of the autism issue and the need for effective support for people with ASD, this seminar will provide a unique platform for mutual assistance, knowledge exchange, practical skills, and innovations among specialists working with this group of people. There will be discussions of scientific research, best practices, and methods aimed at the qualitative application of established and developing professional competencies among specialists to improve the quality of life for individuals with autism and their families. Join us for the discussion of key issues and the joint search for solutions.

International participation of representatives from the education systems of the People's Republic of China, the Republic of Kazakhstan, and the Republic of Belarus.

The seminar will be held in a hybrid (in-person and remote) format on March 26, 2025, from 10:00 to 13:00 (GMT/UTC +3) at the following address: Kazan, ul. Martyna Mezhlauka, 1, Institute of Psychology and Education.

Registered participants of the seminar will receive an electronic certificate.

Official seminar languages: Russian, English.
