

# **Russian-Japanese bilateral conference on Microbiomes in high radiation environments**

Kazan-Tokyo (10.08.2020)

10:00-16:00 — Introduction: Elena Shagimardanova/Akio Kanai

10:05-16:05 — Issay Narumi (Toyo University): Radiation resistant microbes

10:35-16:35 — Natalia Gogoleva (KFU, RAS): Metataxonomical analysis of  
microbial community in Paleolithic era cave

11:05-17:05 — Yoshikazu Koma (JAEA): Contaminated water under reactor  
buildings of Fukushima Daiichi Nuclear Power Station

11:35-17:35 — Evgeny Andronov (ARRIAM): Soil microbimics: hints,  
pitfalls, solutions

12:05-18:05 — Tomoro Warashina and Akio Kanai (Keio University):  
Microbial community analysis of high-radiation environments,  
Fukushima Daiichi Nuclear Power Plant and the surrounding  
areas

12:35-18:35 — Nurislam Shaihutdinov (KFU): Microbiome analysis of  
radiation contaminated areas

13:05-19:05 — Toshikazu Ebisuzaki (RIKEN): Nuclear Geyser model for the  
origin of the life

13:35-19:35 — Discussions
